

## Aviation Spotter Guide:

EGFE - Haverfordwest Airport.      Radio: 122.200

### Location

Haverfordwest Airport is situated 2 miles north of the main town of Haverfordwest West Wales. Haverfordwest is around 90 miles west of the main city Cardiff, and also in the area not a million miles away is Swansea (EGFH), Pembrey (EGFP) and West Wales Airport Aberporth. (EGFA)

### Office

When you arrive at Haverfordwest the car parking is quite good with plenty of room which is handy when looking for the tower or weekend office. Airside access is possible, but you need to seek clearance from Tower (weekdays) and the small office in the main building on weekends. To get to the office to ask if you can go airside, walk towards the green control tower its quite a new building (cant miss it) as you walk towards it on your right will be a shutter and next to that is a little door, go in through that door and its then the first door on your left. There is nearly always some one in there on the radio but if not just hang around a few moments and no doubt someone will be around to help.

### Spotting

The staff at Haverfordwest are really friendly towards spotters and if you ask nicely in the office they will be more than happy, providing it's not too active, to let you have a look around the hangars. They will require all people to wear Hi-Vis vests and to report back to the office when you are leaving. 80% of the time all the hangars are open and in the maintenance hangars if there are aircraft in with registrations missing the staff in the hangars will provide you with the reg. *Please do not enter Maintenance hangars.* Also note that sometimes private hangars may be locked on weekends.

Further to this if you don't have a Hi-Vis with you the staff will let you borrow one for your time airside.

## Aircraft

This is quite obviously the most important thing for any plane spotter. Haverfordwest has a very healthy based selection of aircraft some of which listed below. A good days spotting will be guaranteed for the records if you have not been here before. We believe at last count there is about 75 aircraft possibly more depending when you call. Some of your usual stuff, Helicopters, Cessna's, Pipers but also Wolf Boredom Fighter, Luscombes, A Gyroplane, 2 Cessna 310's and if your interested in them a few microlights.

## Photo Opportunities

The photo opportunities at Haverfordwest are also really good both on the ground and Landing and Departing:

Runway 21: Departures – Good  
Arrivals – Poor

Runway 27: Departures – Good  
Arrivals – Poor

Runway 09: Arrivals – Good  
Departures – Fair

Runway 03: Arrivals – Good  
Departures – Good

## Amenities

Haverfordwest has a very nice café on site called the Propellers Café and the serve meals all day ranging from sandwiches to Full English breakfasts, drinks and more for great prices. Toilet facilities also available on site.
